Dear Collectors,

We're trying something new and different with this catalogue!

The world's changing fast, and technology continues to change the way we live, the traditional approach seems to continue to suffer. For several auctions now the increase in printing costs has become significant and I've been assessing the best way forward.

It is important to us not to increase our buyer's premium for bottle auctions or to introduce a catalogue subscription fee. So, we hope buyers will see this catalogue as a fair compromise.

This catalogue gives you a quick rundown of everything – lot numbers, item titles, overall condition, and starting bids – all in one place. Easy to flip through and get a sense of what's on offer. It is then intended that buyers use the online catalogue which includes detailed descriptions and additional photos, that way you can be 100% sure on what you want and *Bid With Confidence*.

For folks who aren't online don't panic, we've got you covered too. We've included a separate booklet in this catalogue with all the detailed descriptions, and we'll have extras on hand on auction day. If you don't use the internet and can't find the booklet, let us know ASAP.

Here at Nick Rowland Auctions, we're always looking for ways to improve, so if you have any ideas, fire away! You can email them or call me directly. My team has already identified a few tweaks for next time.

Speaking of next time....our next auction is right around the corner, Keep an eye out in the mail for our June bottle auction it's gonna be massive.

Happy Collecting
Nick Rowland
